

JEDC Special Issue on "Investment, Energy, and Green Economy"

JEDC will publish a special issue dedicated to analysis of investment decisions in dynamic environments in the presence of uncertainty and irreversibility. Particular focus is put on applications with relevance for Energy and Green Economy. Both theoretical and applied contributions at the forefront of research on these issues with an emphasis on rigorous microeconomic analysis are solicited. The special issue is associated to the Workshop on 'Investments, Energy, and Green Economy' in Brescia in April 2019, however submissions are not restricted to participants of the workshop. All submissions will be screened with respect to their suitability for the topic of the special issue and then will be peer-reviewed according to the usual JEDC standards.

Manuscripts to be considered for the special issue should be submitted online through <http://www.journals.elsevier.com/journal-of-economic-dynamics-and-control> indicating that this is a special issue submission. There is no submission fee for papers submitted to this special issue.

Submission Deadline: September 15, 2019

Special Issue Guest Editors: Herbert Dawid, Peter Kort, Sergio Vergalli
